DETAILED ACTION

Allowable Subject Matter

1. Claims 26-48 and 71-93 are allowed.
2. The following is an examiner's statement of reasons for allowance: With respect to claim 26, the prior art does not disclose a system in which a gun with a barrel has a laser weapon disposed in the barrel, and having an *antenna*. While Class 42, subclass 116 disclosed many prior art references in which a barrel included a laser weapon cartridge disposed in the barrel, none of the laser cartridges included at least one antenna. Similarly, with respect to claim 71, the prior art does not appear to disclose a sensor disposed in a hollow elongated member with a laser weapon cartridge that is capable of firing automatically in response to data gathered by the sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited on form PTO-892 are cited as of interest to show similar laser systems.
